Re: Bear Canyon USR-2 Monthly Reporting, November 2014

Dear Gary:

The Albuquerque Bernalillo County Water Utility Authority (Water Authority) is providing the November 2014 monthly report for the Bear Canyon Recharge Project permitted under USR-2. This is the first monthly report submitted under the full-scale permit. The attached table and figure provide the daily volumes that were released into Bear Canyon from the initiation of project operations on November 4, 2014 through November 30, 2014. A total of 62.7 acre-feet was released over this time frame.

Please contact me (505-289-3056, kyuhas@abcwua.org) or Amy Ewing (505-822-9400, aewing@dbstephens.com) if you have any questions or need any additional information.

Sincerely,

Katherine Yuhas, Water Conservation Officer
Albuquerque Bernalillo County Water Utility Authority
